Subject: Follow-up Meeting Dates & Links to EPA Selenium Documents

Hello Everyone,

Thank you for attending yesterday's conference call concerning the ESA consultation for EPA's draft California selenium water quality criterion. We appreciate your early participation; we sincerely hope this early coordination will streamline the consultation process in the upcoming months.

We discussed a follow-up meeting the week of July 30, 2018, after we talk with the State. Please let me know if you would also like to discuss in more detail the development of the draft criterion (i.e., its tissue and water column elements).

Please let me know if any of the following days and times work for you:

Tuesday 7/31: 1 – 2 pm
Wednesday 8/1: 1 – 2 pm or 2 – 3 pm
Thursday 8/2: 1 – 2 pm or 2 – 3 pm.

As discussed, please find below links to our 2016 CWA section 304(a) national freshwater selenium criterion, and draft implementation documents:

- EPA's Clean Water Act section 304(a) National Recommended Criterion for Aquatic Life (Freshwater) can be found here (along with related documents, e.g., Fact Sheet, Responses to Public Comments):
<https://www.epa.gov/wqc/aquatic-life-criterion-selenium-documents>
- EPA's draft implementation documents can be found here (there are 4 documents: Adopting and Implementing; Monitoring; Assessment, Listing and TMDLs; and NPDES Permits):
<https://www.epa.gov/wqc/draft-technical-support-materials-epas-aquatic-life-ambient-water-quality-criterion-selenium>

Please let me know if you have any questions. We look forward to working with you on this consultation.
Diane
